

THE IDEAL WAY TO ENSURE A ROOF'S QUALITY

The roofing flashing solution

Duroflex is a flexible aluminum flashing band especially designed to be used in modern roofing applications.

It is the best solution to seal roof structures, wall joints and other elements occurring in the roof covering.

**"WITH DUROFLEX
YOUR ROOF WILL
REMAIN
LEAK-PROOF AND
DURABLE."**

DUROFLEX
THE ROOFING FLASHING SOLUTION

THE IDEAL WAY TO ENSURE A ROOF'S QUALITY

The roofing flashing solution

AREAS OF APPLICATION

Duroflex is a universal flashing for wall abutments and for any part of the roof. It is the best choice for chimney flashings, skylight flashings, pipe flashings, sidewall flashings, headwall flashings, roof to wall flashing, step flashing, solar flashing and flashing roof vents.

COLORS AND SIZES

Duroflex comes in a 5m roll in three different widths: 200, 300 & 400mm. It is available in two colours to blend in with the roof: Spanish Red and Black.

CHARACTERISTICS

- **Lightweight, high malleable material.** Extremely flexible and stretchable to flash complex shapes.
- **Self-welding effect.** It does not require specialist tools for a simple and quick installation.
- **Non-toxic, eco-conscious product.** Lead-free roofing flashing band.
- **Highly durable. UV resistant coating.**
- **Watertight joints.** Full butyl adhesive backing to provide an instant waterproof seal.
- **10 years guaranteed.**
